## DROP SALTER

### Indispensible Features

Machinability's drop salter is another example of the new standards of quality in the industry. The fit, finish, and structural integrity are second to none in the market. Inquire to Machinability directly by phone, or contact your closest dealer for current pricing.

### Available Mounting Systems:

Three Point Hitch Category 1  
Skid Steer Standard Front Mount SAEJ2513  
Skid Steer Tow Behind Trailer

### Available Drive Systems:

PTO Driven: PTO ISO "Type 1", 540 rpm, Ø35mm, 6 straight splines.  
Hydraulic Driven: #10 SAE/ORB Ports

- 1 Rigidly constructed lightweight box holds 0.5 cubic yards.
- 2 Integrated formed legs on all four corners provide stability and strength.
- 3 Hinged framed lid includes locked position for safe cleaning.
- 4 Fully adjustable spring steel fingers allow for deposition rate control. A multi-position lever arm allows you to quickly adjust the finger tension to 6 positions. The heavy duty internal agitator prevents clumping and clogging.
- 5 Heavy duty bolt on cover plate provides protection for mechanical components.
- 6 PTO high strength, corrosion resistance gearbox has precision forged gears and tapered roller bearings.
- 7 Alternate hydraulic motor drive option allows you to power the salter on a wide range of machines without a PTO drive.
